VISION : *Resolution to design and deliver intelligent IT industry oriented education.*

ACKNOWLEDGEMENT

I would like to thank Ms. Nikhar Bhatnagar, our Project Mentor who devoted his time and helped with the tools to make our project a success. So, Ms. Nikhar Bhatnagar proposed the idea of a system application which provides students an environment and facility for an online test of the chosen subjects. The application consists a database of student details and languages for which they can give their tests by their own username and password.

I would also like to thank my team members whose hard work and team spirit made it possible to complete the project on time.

Also, I would like to thank Ms. Rubal Gill (Sr. Lecturer) and Dr. C.M. Choudhary (HOD C.S.E.) for their constant support.
